

PODAR NATURE CLUB- ANNUAL REPORT 2016-17

Activities conducted during the year 2016-17:

1. Tree Plantation

Date: 7-07-2016

Place: Bharanpur, near palghar

On the occasion of "Van Mahotsav" the Nature Club Members along with the NSS unit our college went to Bharanpur our college adopted village for planting trees. We planted a total of around 20-30 saplings of various kind. The main purpose of this activity was spread awareness on the importance of tree plantation.

2. Meeting:

Date: 19-7-2016

A Nature Club meeting was conducted in f-4 from 10:00 a.m. to 10:30a.m during which the volunteers were briefed about Nature Club Activity schedule for the year and upcoming activities were discussed.

3. Keshav Shushti:

Date: 23-7-2016

No of volunteers: 28

It is said that the earth has music for those who listen and it never fails to offer them with utmost beauty. Like many other trips organized by the nature club, the recent trip too served as a lynchpin connecting today's dynamic generation to the exquisite greens of Keshav Srushti that has set its roots in Uttan village.

Upon reaching, the members of Nature Club were escorted by a guide across the 200 acres' lush green campus that showcased rare species of herbal and botanical plants. Some of the attractions included apiculture- knowing the beekeeping and importance of honey, vermicomposting & learning concept of Vermiwash, Biogas plant, visiting the Gaushala (the cow shed), learning about a variety of medicinal plants and vegetable cultivation.

The students also participated in various activities such as treasure hunt and paper making workshop. We were educated about importance of nature and the "hot" topic of world importance of 'Eco Friendly Environment'.

Being around our "mother" nature gave us the opportunity to understand our environment inside and out. With the leaves myriad of colours and the water flowing quietly, one could really see how peaceful the undisturbed carrying natural beauty of the place was and it made each one of us ponder what other stunning and serene places were destroyed in order to build the culture we live in. Being away from the routine of everyday life and getting to experience nothing but nature is something that we would love doing and will continue to do our bit together.

4. Movie Screening:

Date: 02-9-2016

No of volunteers: 16

The Podar Nature Club presented a marvellous and adventurous movie named Ace Ventura Nature Calls for all its forum members in G1. The movie showcased a man named Ace Ventura as a pet detective and how he returned from a spiritual quest to investigate the disappearance of rare animals. The basic aim of this movie screening was to make students understand the value of nature and its components. Overall it was a humorous movie and was enjoyed by all the students.

5. Sandhan Valley:

Date: 6th and 7th Dec 2016

No of volunteers: 36

An amazing experience in the lush green meadows a day out of the busy monotonous routine helping us not only rejuvenate, reboot but also unwind and make new friends.

The activities and arrangements for the same well managed and coordinated by the people in charge leave absolutely no space and room for any sort of complaint or dissatisfaction. The phenomenal tent spot pulling over a blanket of stars giving us a glimpse of the constellations was a starling experience.

Commitee Member 2016-17

Teachers In Charge
