## Syllabus of courses of FY B. F.M. Programme (With effect from the Academic Year 2023-2024)

5. Ability Enhancement Courses, Value Enhancement Course, Indian Knowledge System 5.A Ability Enhancement Course (AEC)

**5.A.**a Language and Literature I (3 Credits)

## Semester I

5. Ability Enhancement Courses, Value Enhancement Course, Indian Knowledge System			
	5.A Ability Enhancement Course (AEC)		
5.A.a Language and Literature I			
	Course Objectives and Course Outcomes		
	Course Objectives		
CObj 1	To understand the effective use of power point presentation, relevance and importance of interpersonal communication skills		
CObj 2	To enhance written communication skills		
CObj 3	To enable the learners to adapt to the requirements of the industry.		
	Course Outcomes		
COut 1	Learner understands the Concept of Communication: and its importance as a key concept in the Corporate and Global world.		
COut 2	Learner understands the impact of technological advancements on Communication Channels and Objectives of Communication		
COut 3	Learner understands various Methods and Modes of Communication - Verbal and Nonverbal.		
COut 4	Learner understands problems in Communication /Barriers to Communication and ways to overcome these Barriers in Communication.		
COut 5	The learners learn to use statistical tools in PowerPoint presentations,		
COut 6	Learners are able to write letters of enquiry and letters of complaint.		
COut 7	Learners are able to demonstrate Practical application of preparing flyers and leaflets help the learners demonstrate their creativity.		
COut 8	Learners demonstrate Listening, Comprehension, Speaking Skills. Nonverbal communication skills of learners are enhanced.		
COut 9	Learners acquire Presentation skills of a News Item, Dialogue and Speeches, Paragraph writing.		
COut 10	Learners are able to analyse texts from the fields of Commerce and Management		

	Language and Literature I		
Sr. No.	Modules	No. of Lectures	
1	Theory of Communication & Obstacles to Communication in Business World	15	
2	Business Correspondence	15	
3	Language and Writing Skills	15	
	Total No. of Lectures:	45	

Sr. No.	Modules
1	Theory of Communication & Obstacles to Communication in Business World
	Concept of Communication: Meaning, Definition, Process, Need, Feedback Emergence of Communication as a key concept in the Corporate and Global world Impact of technological advancements on Communication Channels and Objectives of Communication: Channels- Formal and Informal- Vertical, Horizontal, Diagonal, Grapevine Objectives of Communication: Information, Advice, Order and Instruction, Persuasion, Motivation, Education, Warning, and Boosting the Morale of Employees(A brief introduction to these objectives to be given) Methods and Modes of Communication: Methods: Verbal and Nonverbal, Characteristics of Verbal Communication Characteristics of Non-verbal Communication, Business Etiquette Computers and E- communication: Organizing and use of Video and Satellite. Problems in Communication /Barriers to Communication: Physical/ Semantic/Language / Socio-Cultural / Psychological / Barriers, Ways to Overcome these Barriers Listening: Importance of Listening Skills, Cultivating good Listening Skills Introduction to Business Ethics: Concept and Interpretation, Importance of Business Ethics.
2	Business Correspondence
	Theory of Business Letter Writing: Parts, Structure, Layouts—Full Block, Principles of Effective Letter Writing, Principles of effective Email Writing, Personnel Correspondence: Statement of Purpose, Job Application Letter and Resume, Letter of Acceptance of Job Offer, Letter of Resignation [Letter of Appointment, Promotion and Termination, Letter of Recommendation
3	Language and Writing Skills
	Commercial Terms used in Business Communication Paragraph Writing: Developing an idea, using appropriate linking devices, etc Cohesion and Coherence, etc [Interpretation of technical data, Composition on a given situation, a short informal report & improvisation Activities] Listening, Comprehension, Speaking Skills: Presenting a News Item, Dialogue and Speeches Paragraph Writing: Preparation of the first draft, Revision and Self Editing, Rules of spelling. Reading Comprehension: Analysis of texts from the fields of Commerce and Management.

# Syllabus of courses of FY B.F.M. Programme (With effect from the Academic Year 2023-2024)

# 5. Ability Enhancement Courses, Value Enhancement Course, Indian Knowledge System 5.C Value Enhancement Course (VEC)

## 5.C.a <u>Indian traditional approach in conservation and sustainability</u> (2 Credits)

#### Semester I

5. Ability Enhancement Courses, Value Enhancement Course, Indian Knowledge System				
5.C Indian Knowledge System (IKS)				
5.C.a, Indian traditional approach in conservation and sustainability				
Course Objectives and Course Outcomes				
Course Objectives				
The course will enable the learner to understand the scientific and moral value of traditional ancient Indian knowledge.				
The course is expected to convert the ancient wisdom to the applied aspects of the modern scientific paradigm.				
The course is expected to create interest and excitement in the learner to explore more on the specific area of knowledge.				
The course is expected to empower the learner to inspire others in learning our own traditional practices of sustainability.				
The course is expected to develop the interest in the learner to do further research in the specific area of knowledge.				
Course Outcomes				
The learners shall be able to acknowledge the contribution of traditional Indian wisdom in various commercial fields.				
The learner should be able to draw connections between the trade & commercial activities along with their influence on the environment and the efforts to address the same.				
The learners shall be able to identify traditional eco-friendly options for current modes of transportation.				
The learner should be able to understand the ancient practices of resource conservation and to have a holistic approach towards sustainable development in modern times.				
The learners should be able to analyze the current practices of land management with respect to ancient Indian practices for the conservation of the same.				
The syllabus shall enable the learners to correlate the conventional practices of water conservation with special reference to ancient wisdom in the same regards.				
The learners shall be able to suggest measures for forest conservation through various ancient Indian solutions.				
The learners should be able to evaluate the Indian contribution in various contemporary fields of social sciences and technologies.				
The learners should be able to describe the case studies to illustrate the significant contribution of Indian scholars in various conventional fields of social sciences.				
The learners should be able to examine the future perspectives and possibilities of various aspects of the Indian Knowledge System to enrich the society				

	Indian Traditional Approach in Conservation and Sustainability		
Sr. No.	Modules	No. of Lectures	
1	Conventional Trade and Commerce and Environment	15	
2	Resource Conservation and Sustainability	15	
3	Significant Indian Contributions to the World	Internal Component/ Assessment	
Total No. of Lectures:		30	

Sr. No.	Modules	
1	Conventional Trade and Commerce and Environment	
	<ul> <li>A. Introduction and overview of Indian Knowledge System. Indian disciplinary knowledge system in different fields like, architecture, science &amp; technology, nature, astronomy, agriculture, health &amp; medicine, Defence (case study of Rani Abbakka Chowta who defeated Portuguese)</li> <li>B. Traditional commercial activities &amp; trade practices with reference to environmental conservation: Agricultural trade, Silk, Cotton, Spices, Metallurgy, Textile industry, etc.</li> <li>C. Transportation and its modes: Grand Trunk road, Boat &amp; ship-building, Energy efficiency in the transport sector: a current scenario, ecomobility. Impact of transport on climate, impact of climate on transport.</li> </ul>	
2	Resource Conservation and Sustainability	
	<ul> <li>A. Land Management &amp; Conservation: Ancient &amp; traditional agricultural activities, Conservation strategies, Harappan civilization-town planning, etc.</li> <li>B. Water Management &amp; Conservation: Harappan civilization, ancient practices of irrigation, Tanks, Lakes, Stepwells, Traditional rain-water harvesting, Community involvement.</li> <li>C. Forest &amp; Wildlife Conservation: Sacred forests, sacred groves, sacred hills, Social forestry, Agroforestry, Animal worshiping, Worshiping natural forces. Women and conservation- Ecofeminism.</li> </ul>	

# Significant Indian contributions to the World (internal component/assessment) A. Contribution in the field of agriculture: Food crops, Cotton, Animal husbandry, etc. B. Contribution in the field of science & technology: Invention of zero, etc. C. Contributions in the field of health & medicine: Ayurveda, Meditation, Yoga, etc. D. Case studies on Indian Knowledge System on any particular/ specific area of knowledge: Ayurveda, Agriculture, Astronomy, Architecture, Economics, Mathematics, Philosophy, Yoga, Medicine, Nature, Politics, Weaponry, Military science, Literature, Poetics or any other area of knowledge. Indian Knowledge System- Future perspectives: Challenges and Opportunities.

To understand and enable learners how to implement successful planning of business processes.  Course Outcomes  Course Outcomes  Course Outcomes  Course Outcomes  Learners will be able to identify and evaluate the influence of historical forces on the current practice of management.  Learners will be able to identify and evaluate social responsibility and ethical issues involved in business situations and logically articulate own position on such issues.  Cout 3  Learners will understand the types of organization and various roles and functions within an organization.  Cout 4  Learners will be able to understand how organizations adapt to an uncertain environment.  Cout 5  Learners will be able to identify techniques managers use to influence and control the internal environment of an organization.  Cout 6  Learners will be able to understand the basics of developing the process of management's four functions: planning, organizing, leading, and controlling.  Cout 7  Learners will be able to understand the basics of developing the process of management's four functions: planning, organizing, leading, and controlling.  Cout 8  Learners will be able to evaluate leadership styles to anticipate the consequences of each leadership style.  Learners will be able to identify the areas to control and Selecting the Appropriate controlling methods/Techniques.		Course Objectives
To understand the process of Business decision making using various tools and techniques to remain competitive. To understand and enable learners to use problem-solving strategies and critical thinking and apply these skills in real life situations.  To understand different areas of the business (i.e., Manufacturing/Service, Marketing, Finance and Human Resource Management).  To understand and enable learners how to implement successful planning of business processes.  Course Outcomes  COut 1 Learners will be able to analyse and evaluate the influence of historical forces on the current practice of management.  COut 2 Learners will be able to identify and evaluate social responsibility and ethical issues involved in business situations and logically articulate own position on such issues.  COut 3 Learners will understand the types of organization and various roles and functions within an organization.  COut 4 Learners will be able to understand how organizations adapt to an uncertain environment.  COut 5 Learners will be able to identify techniques managers use to influence and control the internal environment of an organization.  COut 6 Learners will be able to understand the basics of developing the process of management's four functions: planning, organizing, leading, and controlling.  COut 7 Learners will be able to evaluate leadership styles to anticipate the consequences of each leadership style.  COut 9 Learners will be able to identify the areas to control and Selecting the Appropriate controlling methods/Techniques.	CObj 1

#### 1. Major 1.A Financial Markets II

#### 1.A.b.Financial Accounting -II Analysis of Financial Statements (3 Credits)

#### **Semester II**

	1.Major
	1.A Financial Markets II
	1.A.b Financial Accounting – II Analysis of Financial statements
	Course Objectives and Course Outcomes
	Course Objectives
CObj 1	Develop a comprehensive understanding of financial statement analysis and its
	importance in assessing the financial performance and position of an organization.
	Familiarize students with the different financial statements (income statement,
	balance sheet, statement of cash flows) and their components.
CObj 2	Introduce students to the various techniques and ratios used in financial statement analysis. Provide students with the skills to interpret and analyse financial
C 00j 2	statements to make informed decisions about an organization's financial health.
	Explore the role of financial statement analysis in evaluating investment
CObj 3	opportunities and making investment decisions. Examine the limitations and
	challenges of financial statement analysis and develop strategies to overcome them.
	Course Outcomes
	Learner understands the objectives and importance, uses and limitations of
COut1	Financial statement analysis.
COut2 Learner understands the various types of financial statements generated by	
	organisations.
COut3	Learner applies financial statement analysis techniques to assess the financial
	performance and position of an organization.
COut 4	Learner is able to interpret and analyze the income statement, balance sheet, and
GO . 7	statement of cash flows to gain insights into an organization's financial health.
COut 5	Learner is able to calculate and interpret key financial ratios, such as profitability
	ratios, liquidity ratios, and solvency ratios, to evaluate an organization's financial performance.
COut 6	Learner is able to evaluate and compare the financial performance of different
Couro	organizations using financial statement analysis tools and techniques.
COut 7	Learner is able to use various valuation techniques to assess financial status of an
	organization.
COut 8	Learner is able to understand financial analysis of special situations such as Mergers
	and Acquisitions, Restructuring and Bankruptcy.
COut 9	Learner is able to assess the creditworthiness of an organization using financial
	statement analysis.
COut 10	Learner is able to identify potential risks and opportunities based on financial
	statement analysis and make informed decisions regarding investment and
	financing.

	Financial Accounting – II Analysis of Financial Statements

# Syllabus of courses of FYBFM Programme (With effect from the Academic Year 2023-2024) 4. Vocational & Skill Enhancement Courses (VSEC) <u>Financial Modelling using Excel</u> (2 Credits)

#### **Semester II**

	4. Vocational & Skill Enhancement Courses (VSEC)		
4.B Skill Enhancement Courses (SEC)			
	4.B. Financial Modelling using Excel		
	Course Objectives and Course Outcomes		
	Course Objectives		
CObj 1	To empower students with core financial skills and methods in business financing to analyse, assess, and strategies the operations of any organisation.		
CObj 2	To enable students to understand forecasting future financial performance based on historical data and other assumptions, such as revenue, expenses, and cash flows.		
CObj 3	To enable students to understand how financial models evaluate investments, develop budgets, plan for future expenses, and measure the performance of a business.		
	Course Outcomes		
COut 1	Learners demonstrate fast, efficient and accurate Excel skills		
COut 2	Learners design and construct functional and robust financial modelling applications.		
COut 3	Learners are able to apply efficient financial forecasting modeling techniques		
COut 4	Learners are able to apply data analysis tools in Excel for forecasting and budgeting, Sensitivity analysis and Scenario planning.		
COut 5	Learners are able to understand various Valuation Methods for ROI Calculations and Risk assessment.		
COut 6	Learners understand Data Manipulation and Consolidation and Advanced Charting and Visualisation Techniques.		
COut 7	Create a basic 3-statement financial model.		

Financial Modelling using Excel			
Sr. No.	Modules	No. of Lectures	
1	Introduction to Financial Modeling and Excel Basics	15	
2	Valuation, Investment Analysis and Advanced Financial Modelling Techniques	15	
	Total No. of Lectures:	30	

Sr. No.	Modules		
1	Introduction to Financial Modeling and Excel Basics		
	Introduction to Financial Modeling, Overview of Excel and its Features, Understanding Excel Formulas and Functions, Data Entry and Formatting in Excel, Working with Worksheets and Workbooks, Creating Basic Charts and Graphs. Best Practices for Financial Modeling, Advanced Excel Functions for Financial Modeling, Forecasting Techniques and Assumptions, Financial Statement Modeling (Income Statement, Balance Sheet, Cash Flow Statement), Cash Flow Forecasting and Budgeting, Sensitivity Analysis and Scenario Planning, Data Analysis Tools in Excel (Goal Seek, Solver).		
2	Valuation, Investment Analysis and Advanced Financial Modeling Techniques		
	Overview of Valuation Methods, Discounted Cash Flow (DCF) Analysis, Equity Valuation using Dividend Discount Model (DDM), Company Valuation using Comparable Company Analysis, Building Investment Models and ROI Calculations, Risk Assessment and Monte Carlo Simulation.  Data Manipulation and Consolidation Techniques, Advanced Charting and Visualization Techniques, Automation and Macros in Excel, Incorporating Macros in Financial Models, Financial Modeling Best Practices and Error Checking.

## Syllabus of courses of FY B.F.M. Programme (With effect from the Academic Year 2023-2024)

## 5. Ability Enhancement Courses, Value Enhancement Course, Indian Knowledge System 5.B Value Enhancement Course (VEC)

5.B.a <u>Business Statistics</u> (3 Credits)

#### **Semester II**

5. Ability Enhancement Courses, Value Enhancement Course, Indian Knowledge System			
	5.B Value Enhancement Course (VEC) 5.B.a Business Statistics		
	Course Objectives and Course Outcomes		
	Course Objectives		
CObj 1	To understand the basics of statistics and learn the various modes of presentation of data.		
CObj 2	To acquire knowledge of probability and standard statistical distribution		
CObj 3	To understand the concept of decision theory by using various methods		
	Course Outcomes		
COut 1	The learners are able to distinguish between different types of model for time series analysis and there is understanding of data interpretation.		
COut 2	The learner is able to interpret data using methods for summarizing data assets, including common graphical tools such as box plots, histograms, frequency polygon and ogive curves.		
COut 3	Different types of decision theory and the practical application of the same is well understood.		

Business Statistics		
Sr. No.	Modules	No. of Lectures
1	Correlation and Regression	15
2	Time Series	15
3	Decision Theory	15
	45	

Sr. No.	Modules		
1	Correlation & Regression		
	<ul> <li>Correlation Analysis: Meaning, Types of Correlation, Scatter diagram, Karl Pearson's method of Correlation Coefficient</li> <li>Regression Analysis: Meaning, Concept of Regression equations, Slope of the Regression</li> <li>Regression Coefficients, Relationship between Coefficient of Correlation and Regression coefficients, Coefficient of Determination</li> <li>Finding the equations of regression lines by method of least squares.</li> </ul>		
2	Time Series		
	<ul> <li>Time series: Concepts and components of a time series. Representation of trend by Freehand Curve Method, Estimation of Trend using Moving Average Method and Least Squares Method (Linear Trend only). Additive and Multiplicative Model</li> <li>Estimation of Seasonal Component using Simple Arithmetic Mean for Additive Model (For Trend free data only).</li> <li>Concept of Forecasting.</li> </ul>		
3	Decision Theory		
	<ul> <li>Concept of Decision theory: - Decision maker, Courses of Action, States of Nature, Pay-off matrix;</li> <li>Decision making under uncertainty: - Maximin, Maximax, Minimax regret and Laplace criteria; simple examples to find optimum decision. Formulation of Payoff Matrix.</li> <li>Decision making under Risk: - Expected Monetary Value (EMV); Decision Tree; Simple Examples based on EMV. Expected Opportunity Loss (EOL), simple examples based on EOL.</li> </ul>
